Ceramic is the first kind of art form appeared in the history of human civilization. It is simple and concise, mysterious and abstract. At the same time, it is incomparable. From the aesthetic demand of ceramic art we can see the cultural connotation and spirit of our nation.

Installing Glass Mosaic

NO.1

Preparation of the wall surfaces

Make sure the wall surfaces to be smooth, flat, solid, dry and perfectly clean. We suggest creating a white base about 2mm.

NO.2

Preparation for laying

Score lines on the surfaces to help the sheet posited correctly.

NO.3

Laying

Using the straight of a trowel spread out the adhesive uniformly on the wall. Make sure the adhesive covered all the surface. One time should be not more than 1sqm.

A. Mosaic mounted on paper

Install the mosaic sheets with the paper side facing towards you and then using rubber float to ensure perfected adhesion. Wet the paper with a damp sponge and the remove it gently. Take out of any excess adhesive before it dries by a small spatula.

B. Mosaic mounted on mesh

Press the fiberglass mesh backing directly into the adhesive.

NO.4

Grouting

Using a grout for particular care. For paper-faced mosaic, ensure that tiles are thoroughly cleaned and spread the grout using a rubber float. Make sure no more than 2sqm of area at a time. And then leave the grout drying.

NO.5

Cleaning

Using a damp sponge to remove any grout.

NO.6

Maintenance

Using normal neutral detergents for daily cleaning.

Using a slightly acidic detergents for special cleaning.

The following instructions are for laying mosaics in swimming pool:

1. Make sure the pool is dry and a static test has been carried out on the structure. No water is covered for at least 20 days after laying has been completed. Keeping the substrate temperature between 5°C-30°C.
2. Grind down irregularities in the concrete with wire brushes or a grinder. For special or heavy-duty cleaning, we recommend using a slightly acidic detergent.
