

## COMPANY PROFILE

JINYING Group is a diversified group enterprise that committed to the research and development of building materials, manufacturing, sales and import and export agent business.

We mainly engaged in building tiles and mosaic. We have two independent brands: JINYING and SIEANA, and has been registered in China, Hong Kong, United States, Canada and European countries. Our products are exported to North America, South America, Europe, Asia, Middle Eastern regions and more than 60 countries and regions, the annual export volume more than one hundred million USD.

We enhance our management level by ISO9001 international quality system, OA, ERP and other advanced management tools. Also, we adhere to the people-oriented business philosophy, keep on training professional skill and talents, in order to ensure more efficient and quality to service our customers.

More than 15 years of hard work, we got good business reputation from customers. Our good faith, excellent technical ability and product quality gain recognition of the industry.

**JINYING VALUES:** Efficient, Rigorous, Professional, Customer-centre, Integrity, Innovation.

## DIY TIPS

### 1 PREPARATION

Make sure the floor or wall surfaces to be smooth, flat, solid, dry and perfectly clean. We suggest the tiles install direction should be fit for your design.

### 2 PREPARATION FOR PAVING

Confirm code number, size, shade and quantity before opening the box. For the directional design, please follow the right direction to pave the tiles.

### 3 PAVING

Suggest to paving with cement for ceramic tiles, and cement mixture tile glue grout for porcelain tiles. Ceramic tiles need to dip in water until soaked before paving. Tap the tiles with hammer handle to make it pave firmly.

### 4 FILLING

Tips for filling gap: porcelain floor tile 3-5mm, glazed tile 5mm-10mm, inner wall tile 1.5mm, out door wall tile 5mm. Using cement to fill the gap. Or you can mix color with filler to fill it according to specific design.

### 5 CLEANING

After paving 1 hour, using a damp sponge to remove any cement or grout. After 12 hours, tap the tile with hammer handle and listen to the sound, if you find empty drum, please remove and pave again. After 24 hours, you can wash and walk on it freely.

### 6 MAINTENANCE

Using normal neutral detergents for daily cleaning. Using a slightly acidic detergents for special cleaning.
